

## **Standards for Automated Information Exchanges**

### **Standards should be:**

- ✓ Open (vendor neutral)
- ✓ Focus on business processes and data (not hardware and software)
- ✓ Promote reusability
- ✓ Flexible/Extensible
- ✓ Accessible and understandable
- ✓ Evolving – evaluation, discussion and education required.

### **National Standards**

Justice Information Exchange Model (JIEM) – business process mapping

Global Justice XML Data Model (GJXDM) – data dictionary

National Information Exchange Model (NIEM) – expands GJXDM

Information Exchange Package Documentation (IEPD) - documentation standard

Global Reference Architecture (GRA)

Service Oriented Architecture – for agility and reusability

### **MAJIC Data Exchange Standards**

APSIN ID for person identification - Alaska Public Safety Information Network ID

Arrest Tracking Number (ATN)

Charge Tracking Number (CTN)

Uniform Offense Citation Table (UOCT)

Uniform Minor Offense Table (UMOT)

Alaska Uniform Citation (paper) form

Electronic Citation Form
